MACOSLIIUM ILLACI · FORMA RESONANTIS

Document ID	IP-R-0888-2026
Issuing Entity	IMARCH LTD, Company No. 16791765
Registered Office	128 City Road, London, EC1V 2NX, United Kingdom
Date of Record	18 April 2026
Status	Official Institutional Record — Confidential
Founder & Declarant	Oleksandr Purpurov
Verification Domain	imarch.sbs

SECTION 1 — HYBRID ACCORDION UI: METHOD FOR INTERFACE DENSITY CONTROL

IP Type	Proprietary Method / Software Architecture
First Implementation	Vis Realitatis V.01™ Pilot Module, April 2026
Status	Active — Institutional Record

This solution is implemented within the Vis Realitatis V.01™ Pilot Module and forms part of the Chronicle OS 8888™ institutional ecosystem.

Technical Problem Solved

Elimination of 'infinite scroll fatigue' and institutional memory fragmentation. Traditional web layouts create uncontrolled sequences of content previews, destroying the spatial integrity of the site and impeding access to navigational anchors including footers.

Solution

A hybrid accordion acting as a container-finaliser for chronological content, implementing the following properties:

- **Encapsulation:** Bundles a sequence of blog posts or institutional acts into a single, high-density UI element.
- **Scroll Termination:** Prevents uncontrolled page expansion, providing a clear spatial floor for the user.
- **State-Dependent Geometry:** A <details>/<summary> structure that maintains institutional colour coding (copper/steel) while transitioning from a compact Archive Mask to full content transparency.

SECTION 2 — CHRONICLE OS: INSTITUTIONAL ACTION RECORDING METHOD

IP Type	Proprietary Method / Information Architecture

First Implementation	Vis Realitatis V.01™ Pilot Module, April 2026
Status	Active — Institutional Record

Technical Problem Solved

Loss of institutional memory in traditional CRM and Project Management systems during participant turnover, resulting in discontinuity of organisational history and accountability.

Solution

Each action is recorded as a formal Act comprising four mandatory fields:

- **Actor ID:** The unique identifier of the person or entity performing the action.
- **Timestamp:** The precise date and time of the act.
- **Context (Scene):** The institutional environment or project within which the act occurs.
- **Content:** The substantive record of the action taken.

Core Definitional Framework
Actor: Defined as the sum of their Acts within the institutional record.
Mask: The public facade of an Actor — website, presentation, or official profile.
Protocol: The governing rules of recording and interaction within Chronicle OS.

SECTION 3 — ACTOR ID & RECIPIENT REGISTRY

IP Type	Proprietary Registry Architecture / Institutional Mechanism
First Implementation	Decree No. 0001, IMARCH LTD UK, April 2026
Status	Active — Institutional Record

Publication Formats for Recipients

Format	Description
Public	Full name and award details appear in the open registry.
Alias	A stage name or call sign is recorded instead of legal name.
Ghost	Complete anonymity; verification available upon individual request via closed repository.

Key Innovation — Inheritance by Right of Mission

A unique mechanism whereby a recipient may transfer the rights and benefits associated with their institutional status to another person designated as the Mission Heir. This mechanism transforms a static award or recognition into living institutional capital, capable of continuity beyond the lifetime of the original recipient.

This mechanism is first implemented in Decree No. 0001 of IMARCH LTD UK and constitutes a novel contribution to the architecture of institutional governance.

SECTION 4 — UNIVERSAL FORMOLOGY: COGNITIVE PROTOCOL

IP Type	Proprietary Cognitive Methodology / Scientific Discipline
Primary Source	Monograph: «Introduction to Formology: Transformation of Micro- and Macro-Cosmos»
Publication Details	Lego Publishing, Kharkiv, 2008. 334 pages, A4 format, hard matte cover.
First Implementation within IMARCH	Vis Realitatis V.01™ Pilot Module, April 2026
Status	Active — Institutional Record

Technical Problem Solved

Fragmentation of thinking and action leading to loss of meaning and consequent project collapse.

Solution

Universal Formology structures thinking and action through a single governing principle of form — the Unity of Body, Mind, and Environment — providing a reproducible cognitive protocol applicable across institutional, scientific, and social contexts.

The discipline has been verified at the volume of 5 KANTS of data, equivalent to fifty (50) doctoral dissertations, as confirmed by the expert assessment of Professor M. H. Shcherban, MD, Ph.D. (Act No. 08-88/V, issued for issued by Primary Veteran Organisation №27, Kharkiv, EDRPOU 41220797; integrated into IMARCH LTD UK, 2026).

SECTION 5 — REGISTERED TRADEMARKS & PRIOR RIGHTS

IP Type	Registered Trademarks — State Register of Trademarks and Service Marks
Marks	KovcheG-M-XXXXII® · SunLife-Massage®
Legal Status	Officially Registered — International Priority
Status	Active — Institutional Continuity Declared

Statement of Continuity

IMARCH LTD UK hereby confirms the full legal integration and institutional continuity of the registered trademarks KovcheG-M-XXXXII® and SunLife-Massage®. These marks constitute protected assets under international priority protocols and are recorded herein to establish their nexus with the IMARCH institutional ecosystem.

These trademarks are recognised as foundational assets within the IMARCH IP portfolio and shall be treated accordingly in all institutional, commercial, and legal contexts.

VERIFICATION & DECLARATION

SHA-256 DOCUMENT HASH

[TO BE COMPUTED AFTER FINAL PDF EXPORT]

Verification: Any third party may independently compute the SHA-256 hash of this PDF. If it matches the published value on imarch.sbs, the document is authentic and unaltered.

The hash of this document is published on the official IMARCH LinkedIn page and GitHub repository (imarch.sbs/en/profile/pilot/ip-registry)

I, Oleksandr Purpurov, Founder of IMARCH LTD UK, hereby declare that the intellectual property described in this Registry was developed and first recorded on or before 18 April 2026. This document constitutes the official institutional record of said intellectual property and is published for the purposes of establishing priority of authorship and ownership.

Oleksandr Purpurov Date: **18 April 2026**
