ACTA NON VERBA
MACOSLIIUM ILLACI · FORMA RESONANTIS

Document ID	IP-NOU-8888-2026-01
Issuing Entity	IMARCH LTD, Company No. 16791765, England & Wales
Reference Registry	IP-R-0888-2026 (IMARCH Intellectual Property Registry)
Subject	Dual Institutional Confirmation Technology — Chronicle OS 8888™
Date of Record	23 April 2026
Status	Official Institutional Record — Confidential until hash publication
Operation Code	Acta Non Verba
Declarant	Oleksandr Purpurov, Director, IMARCH LTD UK

1. SUBJECT OF KNOW-HOW

The technology of Dual Institutional Confirmation of Recipient Status within the Chronicle OS 8888™ ecosystem, comprising:

- **An inseparable combination of physical (material) and electronic (digital) insignia;**
- **An audial standard of accompaniment (three levels of acoustic identification);**
- **A mechanism for the synchronisation of status between the physical artefact and the digital Actor ID profile.**

> **This Act** *forms an integral part of the IMARCH Intellectual Property Registry (Ref: IP-R-0888-2026) and constitutes the official record of the know-how described herein for the purposes of commercial confidentiality and intellectual property protection.*

2. NATURE OF THE INVENTION — DUAL INSTITUTIONALISATION

The Dual Award Accompaniment Standard has been developed and implemented. It divides the recognition process into two mutually reinforcing forms:

2.1 Visual Standard (Insignia)

Form	Medium / Standard	Function / Specification
Physical (Traditional)	Breast insignia (order, medal, commemorative badge) in noble metals (titanium, stainless steel) engraved with QR code or NFC tag	Fixation of status in physical space; ceremonial occasions; family succession
Electronic (Smart Insignia)	Digital version of the insignia in 4K/8K resolution (SVG, PNG,	Display of status on mobile devices, in digital environments,

	WebP) + Living Wallpaper (animated dynamic background)	and on the personal Actor ID page

Living Wallpaper — A high-resolution video file with an animated background simulating the movement of fabric (velvet) or energy pulsation, the frequency of which corresponds to the recipient's octave of resonance. Loop duration: 30–60 seconds. Format: MP4 / H.265.

2.2 Audial Standard (Acoustic Resonance)

Three mandatory musical forms are established, differentiated by purpose and ceremonial character:

Form	Medium / Standard	Function / Specification
Institutional Anthem	Opening / closing of official acts and large-scale ceremonies	Monumental composition (organ, violin, deep echo). Duration: 3–4 minutes.
Ceremonial Requiem	Fixation of memory (posthumous) or transition of recipient to perpetual status	Lyrical minor form with bell elements (carillon). Duration: 2–3 minutes.
Signature Ringtone	Acoustic identifier of membership in the Chronicle OS elite (mobile devices)	Unique acoustic marker (15–30 seconds), derived from the Anthem theme. Format: MP3 / M4R, bitrate minimum 256 kbps.

3. INNOVATIVE VALUE OF THE KNOW-HOW

The key innovation is the integration of the insignia directly into the recipient's everyday digital environment. Status is simultaneously fixed:

- **"On the uniform" — a physical insignia for public recognition at ceremonial occasions;**
- **"In the pocket" — an electronic form and acoustic marker on the recipient's mobile device.**

This creates a continuous cycle of institutional presence operating 24/7, transforming an award from a static artefact into a living asset that amplifies the resonance of the holder and sustains their connection to the Chronicle OS system.

Technical Implementation Parameters

- **The physical insignia is linked to the recipient's digital profile via QR code or NFC tag, directing to their personal page within Chronicle OS.**
- **The electronic form of the insignia is synchronised with this page and displays the current status (rank, octave of resonance, dynamic wallpaper).**
- **The pulsation frequency of the Living Wallpaper and the audial resonance correspond to the recipient's octave (1–4).**

4. LEGAL REGISTRATION

This Act forms an integral part of the IMARCH Intellectual Property Registry (Document ID: IP-R-0888-2026). The technology is recognised as the know-how of IMARCH LTD and is subject to protection in accordance with the law governing intellectual property and commercial confidentiality.

Status	**Accepted for Implementation**
